

3D Animal Hunt

My name is Francis. I am the pet cat of the Hunt family. We have many museum objects up online that you can view from home in 3D!

To view our 3D collection visit:

<https://sketchfab.com/limerick3D/models>

You can even move these 3D objects around and look inside them! Why don't you pick an object and take a look?

Computer

1. Click to select object
2. **Zoom:** double click
3. **Rotate:** left click & drag
4. **Move:** right click & drag

Phone/Tablet

1. Tap to select object
2. **Zoom:** pinch your fingers
3. **Rotate:** left click & drag
4. **Move:** right click & drag

Then make sure to scroll down to find more information on each object!

Can you find these animals in our 3D collection?

Figure of a squatting monkey

- Where is this sculpture from?
- What do you think the monkey is feeling?
- Write a story about why the monkey is feeling this way.

Figure of an animal

- What is this sculpture made of?
- Can you guess what animal it is? Is it a real animal or an imaginary one?
- Draw the whole animal, including all the missing bits.

Leopard Mask

Fact: In Benin, the leopard was a symbol of power, beauty, speed, and deadliness. These masks were given to war officers who wore them around their hips.

- Use google maps to find the city of Benin. What country is it in? <https://www.google.com/maps/>
- Draw your own animal mask on card (such as an empty cereal box) to wear around your hips.
- Cut the mask out and pierce two holes, one on either side (you can thread string or a shoe lace through these holes so you can wear your mask).
- What animal will you choose? What powers will it give you?

A Pug (one of a pair)

- What colour fur does this pug have?
- Where is this pug from?
- Have a go at making your own dog using zhezhi - the art of chinese paper folding (instructions included on the next page).

Horus Falcon Figure

Fact: Horus was a very important god — he was the god of the sky! Sometimes he is shown as a half-man half-bird.

- What culture is horus from?
- Make up your own animal god and draw it! What is it the god of?

Horse Outside

- Where can you find this horse in the museum?

Bonus Task: Every object in the museum has a registration number that looks like this: **HCM 199**.

If you zoom closely into the 3D horse and look around, you may find two hidden museum object registration numbers.

To find out what objects they are, search for the registration number on our website:

<https://www.huntmuseum.com/the-collection/>

Can you find any other animals in the 3D objects?
How many could you find in total?

Folded Paper Dog

To make A4 paper into a square :

Step 1:

Turn the paper horizontally. Take the top right corner to the bottom edge, so the top edge lies flush with the bottom.

Step 2:

The paper should look like this.

Step 3:

Cut along the vertical edge of the triangle.

Step 4:

Unfold the triangle to reveal a square. Make 2 squares for your dog.

To make the dog's head:

Step 1:

Take a square sheet of paper. Fold it in half by bringing the right corner to the left corner. Unfold.

Step 2:

Fold paper in half (top corner to bottom corner).

Step 3:

Fold in the left and right corners of the triangle to make ears. Try to make the folds the same size.

Step 4:

Fold up the bottom corner to make the snout.

Step 5:

This is how it should look

Step 6:

Lift open the layers of paper and tuck the bottom snout fold under.

Step 7:

The dogs head is now done.

To make the dog's body:

Step 1:

Take a second sheet of paper. Fold it in half by bringing the right corner to the left corner.

Step 2:

Fold up the bottom right corner to make the tail.

Step 3:

You can now place the head over the body and be done or...

Step 4:

Unfold the tail section and make an outside reverse fold (turn the tail inside out so the underside is visible).

Step 5:

Flatten down the last fold. The dogs body is now done.

Step 6:

Place the dogs head on the body. You can open the body a bit so it stands.

Don't forget to decorate your dog and add eyes, nose, and mouth!
